## Importance and Scope

Network Simulator (ns-3) is an open-source event-driven simulator designed specifically for research in computer communication networks. This is the most widely used simulator used by engineers and researchers in academia and industry for simulation of wired and wireless networks. This short term course on Wireless Network Protocol Development and Simulation using Network Simulator NS-3 is laboratory oriented, in which hands on training will be given. The main focus is on participants become capable enough to write their own simulation model, test them and draw conclusions.

## Course Contents

The short term course aims to include the following topics:

- Installation of NS-3, Migration from NS-2 to NS-3, Add New Module in NS-3
- Wired Networking - P2P, CSMA Network Simulation
- Wifi Network - PHY & MAC Layer Configuration
- Adhoc Routing Configuration in NS-3
- Performance comparison of MANET Routing protocols
- Mobility Model, Energy Model
- Graph Analysis, NetAnim, Trace File Analysis, Case Studies

## Who Can Attend?

PG Students, Research Scholars, Faculty members, Scientists and persons from industries

## About IIT (ISM) Dhanbad

Indian Institute of Technology (Indian School of Mines) Dhanbad, a fully residential university is situated in Jharkhand, India and it was established in 1926 on the model of Royal School of Mines, London. Apart from earth and mineral science departments of national and international reputation, the institute has expanded with diverse branches in engineering including Computer Science and Engineering, Electronics Engineering, Electrical Engineering, Mechanical Engineering, and also Master of Business Administration.

## About Department

The Department of Computer Science and Engineering was established in the year 1997 to keep abreast with the recent technological advancements in the field of Computer Science and Information Technology.

The department offers two under graduate courses namely B. Tech in CSE and Dual Degree in CSE. The admission of these two courses is through JEE Advanced. The department also offers two 2-Years M.Tech course in CSE and CSE with Specialization of Information Security and 3-Years M.Tech (CSE) at IIT Kolkata & New Delhi. The department offers Ph.D in CSE and presently more than 70 full time scholars are working in various research topics. The department runs several sponsored projects from the government organizations like DST, DRDO, CSIR, MIT and UGC. The department organized International Conferences RAIT-2016, RAIT-2014, RAIT-2012, National Seminars RAIT 2009 and RAIT 2007. At regular basis, department used to conduct workshop in the field of Computer Science.
