VENUE: IIT (ISM) DHANBAD, INDIA

icfrh@iitism.ac.in

Indian Institute of Technology (Indian School of Mines) Dhanbad, India (IIT ISM Dhanbad) is in the city of Dhanbad, the coal capital of India, which is at the heart of major Indian coalfields, in the state of Jharkhand. IIT (ISM) has centenary long credentials of outperforming achievements/contributions in academia and the industry. It has been focusing its academic and research activities on various aspects of science, technology and industry, occupying a unique position not only in India, but also abroad. It has substantially contributed to the development of Science, Engineering and Mineral sector through its in-house state-of-the-art facilities for advanced studies and research.

Department of Management Studies & Industrial Engineering (DMSIE), IIT (ISM) Dhanbad was established in 1977 and was offering MTech program in Industrial Engineering and Management (IE&M) as well as Ph.D. Keeping pace with the changing times, the MBA program was launched in 1997 and MBA in Business Analytics in 2020. Department has glorious legacy of more than four decades has seen its rise from strength, continuously evolving and reinventing itself in tandem with changing business and industrial environment of the country. Along with the routine classroom lectures, students of the department take active part in presentations, seminars, workshops, etc.

Indian Health Economics and Policy Association (IHEPA) is a professional body registered under the Societies Registration Act 1960 and serve as a platform for discussing and sharing intellectual ideas pertaining to the Indian health sector was strongly felt by a group of like-minded health economists and policy experts. The HEPA has been created to enable economists and other social science researchers, policymakers and practitioners to exchange, deliberate and discuss key issues and strategies in the health sector, in India as well as globally.

Healthinnovation Toolbox (HIT) is a leading health-tech and digital product engineering company with over 10 years of expertise in transforming healthcare delivery globally. HIT has successfully collaborated with public and private healthcare systems across multiple geographies, including India, Middle East, Africa, and Southeast Asia. By driving digitization and creating inclusive digital health solutions tailored to emerging trends and technologies, leveraging extensive experience and strategic collaborations with major healthcare organizations and ministries of health, HIT has become a trusted partner in advancing global healthcare. HIT develops AI-powered tools, remote monitoring systems, and personalized digital platforms to enhance patient outcomes and streamline care delivery.

ICFRH CONFERENCES

ICFRH-2025

The first International Conference on Future-Ready Hospitals: Strategic Adoption of Industry 4.0 Technologies with vision Viksit Bharat@2047 (ICFRH-2025) scheduled on February 7-8, 2025 with the theme Digital Health and intent to understand how the Industry 4.0 technologies can significantly improve the Indian healthcare systems.

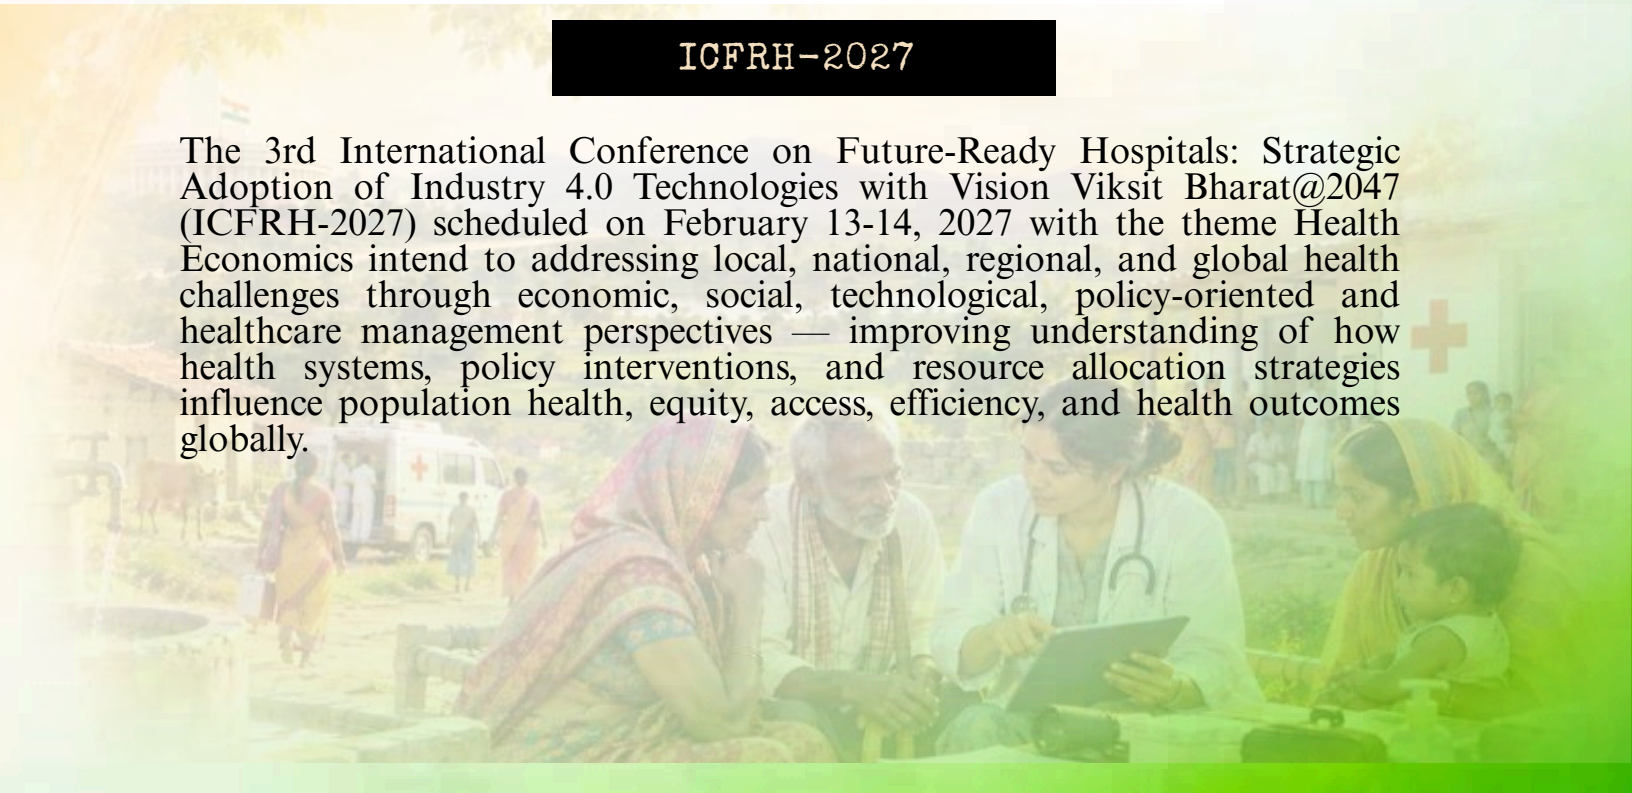

ICFRH-2026

The 2nd International Conference on Future-Ready Hospitals: Strategic Adoption of Industry 4.0 Technologies with vision Viksit Bharat@2047 (ICFRH-2026) scheduled on February 27-28, 2026 with the theme Rural Healthcare and Healthcare Technologies and intent to empathetically reduce the disparity in the rural-urban healthcare system in India.

ICFRH-2027

The 3rd International Conference on Future-Ready Hospitals: Strategic Adoption of Industry 4.0 Technologies with Vision Viksit Bharat@2047 (ICFRH-2027) scheduled on February 13-14, 2027 with the theme Health Economics intend to addressing local, national, regional, and global health challenges through economic, social, technological, policy-oriented and healthcare management perspectives — improving understanding of how health systems, policy interventions, and resource allocation strategies influence population health, equity, access, efficiency, and health outcomes globally.

About the Conference

ICFRH-2027 aims to advance the knowledge in health economics, healthcare technologies, healthcare management and health policy research. We welcome articles addressing local, national, regional, and global health challenges through economic, social, technological, policy-oriented and healthcare management perspectives. The conference welcomes contributions that improve understanding of how health systems, policy interventions, and resource allocation strategies influence population health, equity, access, efficiency, and health outcomes globally.

The conference welcomes practical health economic articles relevant to current healthcare issues, systematic reviews, methodological papers (quantitative, quantitative, economic, mathematical, mixed methods approaches, and any tools of economics to research and discuss issues and problems related to health and healthcare), innovative and high-impact applications/implementation research, economics-focused health policy analysis and healthcare management, and Startup ideas/working prototypes, across the full spectrum of health economics, healthcare technologies, healthcare management and health policy research.

The primary audience for this conference will be

UG/PG and PhD students, healthcare professionals, health economists and researchers in health management, along with the larger group of health seution, researchers. In addition, research and policy analysis reported in the conference papers should be of interest to health care providers, managers and policymakers.

Both national and international participation are encouraged. International participants can present in online mode. National participants should be physically present at the conference venue. Accommodation are available in the institute campus on payment basis.

Important Dates

Deadline to Submit Abstract	– November 20, 2026
Email Notification of Abstract Acceptance	– November 30, 2026
Online Registration Opens	– December 1, 2026
Online Registration Closes	– January 10, 2027
Abstract Presentation Dates/Conference Duration	– February 13-14, 2027

Conference Tracks

(Two Best research awards will be selected from each track):

Systematic reviews

ICFRH-2027 welcomes systematic reviews on all aspects of global health economics, healthcare technologies, healthcare management and health policy research. These articles should synthesize and critically review the literature and draw out lessons for new methods and practice.

Innovative and high-impact application/implementation/methodological research

ICFRH-2027 welcomes methodological papers - qualitative, quantitative, economic, mathematical, mixed methods approaches, and tools of economics to research and discuss issues and problems related to healthcare leading to innovative and high-impact real-world applications/implementation.

Policy analyses

ICFRH-2027 welcomes research articles on health policy issues and economics-focused policy analysis with global relevance to the pursuit of a world where healthcare is effective, efficient and affordable for all.

Startup ideas/working prototypes

ICFRH-2027 welcomes innovative startup ideas and working prototypes that identify best and emerging practices across a wide range of areas within healthcare, showcased for an industry panel for possible follow-up, collaboration or investment.
